

NICK LLOYD

Composer

Nick Lloyd studied Audio Engineering and Music Production at the London School of Audio Engineering. He went on to work as an engineer and music programmer for some of the countries top studios and labels. In 2001 he set up his own recording studio facility in Cardiff, but by this time was already being asked to compose and produce music for film and TV projects. The number of offered commissions accelerated rapidly, and in 2006 Nick began to work full times as a composer.

Recent credits include the BAFTA-winning BBC children's series 'Young Dracula'. Nick has worked on documentary and travel programmes, as well as writing music for over 100 TV commercials for clients including Yamaha, Mercedes, Coors beer, Admiral Insurance, Confused and many others.

Nick is a multi-instrumentalist who is at ease writing in many styles, from cutting edge electronica to orchestral. His extensive work in advertising has nurtured a strong ability to write tightly to brief, budget and deadline, while his training as an engineer, programmer and producer ensures his work is always of the very highest technical standards.
